

Jamaluddin Mondal

Associate Software Developer

Profile

Currently is an associate developer who has nearly 1-year experience of in JavaScript, CSS, HTML, and UI design especially is proficient at Angular, React, Node.js, and the relative technical stuffs.

Not only enjoy learning new techs to solve people's problems and create awesome products, but I also love to explore new life experiences and learn new things in different domains.

Friendly, easy-going, and enthusiastic. Recently was fascinated with React Native, Python & AWS

Employment History

Associate Software Developer at Proveit Catalysts pvt. Ltd., Hyderabad

June 2019 — Present

Food delivery web site: Cukz.com

- As the first Jr developer to integrate the team in this greenfield project, my goal is to create interfaces for our new product utilizing Angular + Sass & using Bit-bucket as our state management system. The main focus is to create small reusable components that could be used in projects by the team.
- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the Sr Developer & designer to suggest changes and to make sure the view he has about the design is translated into actual functionality

React Naive Mobile App: Cukzz, Cukzz Vendor App

- Created screen.
- Fixing Screen design.
- Debugging & Testing
- Creating short hand components

React Native Mobile App : Rapido App UI

- Designed & developed like Rapido Bike Taxi App (Personal Interest)
- Understand Expo, Hook on RN.
- Build and debug

Education
